Languages	Native English speaker with professional level of French	
Skills	Web development: Laravel, CodeIgniter, JSF, JQuery, ASP.NET, HTML, CSS, Smarty, Bootstrap and Pure CSS frameworks.	
	Programming languages: PHP, Java, JavaScript, C#	
	Database: Oracle, MySQL	
	Tools: Eclipse, PHPStorm, Subversion, Git, Maven, Composer, Homestead	
Projects	// Travel:	
	A Laravel web application built as part of a four-person team for the 2015 Expedia.ca Hackathon. We used the Laravel Homestead box for Vagrant as our development environment. We used the Expedia, Yelp and Google Maps APIs.	
	Music is Connexion:	
	E-commerce music store built using Java and JSF with Bootstrap for UI. I worked mainly on the client side, creating the shopping cart, checkout, album details, track details & reviews, account pages, as well as all of the page routing. I worked with the Twitter API to allow clients to share their purchases.	
Experience	Client Queuing System:	
	PHP CodeIgniter project written using Bootstrap for UI. The site provided three major features: Patient Registration, Triage Queueing, as well as priority-based Examination Queueing using SplQueues.	
	Logograph, Montreal, QC	<i>April – May 2015</i>
	Web Development Intern	
Education	Programming against a custom PHP CMS.	
	Adding more functionality to existing features with PHP and JavaScript.	
	Implementing new client side features using jQuery.	
	Writing PHP Unit tests.	
Leisure	Arrivage, Montreal, QC	<i>2014</i>
	Dishwasher	
	Dawson College, Montréal, QC	<i>2012-2015</i>
	Computer Science Technology (DEC)	
REFERENCES AVAILABLE UPON REQUEST	Recipient of 2 nd year computer science award for high GPA	
	Cooking, gardening, biking.
